Mark-up languages:	HTML, CSS, SCSS
Programming languages:	JavaScript, PHP
Frameworks:	React, Laravel
Software:	Figma, Sketch, Adobe CC, Sequel Pro, MySQL
Languages:	Dutch, English

Professional experience.

Decathlon, Gent

Teamplayer Fitness May 2021 - November 2021

Digipolis, Gent

Junior Web Designer January 2019 - September 2019

During my time as junior designer I learned to work with HTML/SCSS, Git, Grunt, NPM, Sketch and Axure. I also got more responsibility, learned to make wireframes, mock-ups and designs and got more involved in dealing with clients.

Digipolis, Gent

Web Design Intern December 2017 - December 2018

I got to learn about HTML/SCSS, using Git and pretty quickly became a full member of the team, supervised by my colleague.

Education.

BeCode, Gent

Web Development April 2022 - Current

I'm currently doing a 7-month web dev course at BeCode Gent, learning both front and back end development. My preference is definitely front end since I'm more design oriented and I enjoy using React.js, but I know the basics of PHP and Laravel

Syntra M-VI, Sint-Niklaas

Graphic Design September 2013 - June 2014
